

Vacuum-coolingtumber RVMT-400-K

Your benefits at one view

- energy efficiency by isolationjacket
- energy-safing motors
- baffler intecrated in the cooling circuit
- with colored touchscreen control
- integrated recipe management

Drum volume	l/liter	400
Max. capacity	kg	200
Number of speeds		10
Turns per minute	U/min.	1.5 – 14.6
Drive		Direct drive
Support		3-point on drive shaft and roller bearings
Cooling unit		With double jacket and isolation
Vaccum unit	m3 / h	21
Drum drive	kW	1.1
Vacuum pump	kW	0.75
Voltage	V/Hz	400V 50Hz
Fuses	A/Amps	16
Drum diameter	cm	980
Loading opening diameter	cm	42
Dimensions	cm	171 x 98 x 163
Net weight	kg	430
Net weight with cooling unit	kg	500
